The visit, in context.

DEMO-WO-1042 / DEMO-SYS-017 / Elena Brooks - fictional

The assignment

Investigate the reported intermittent-production fault.

Bring back evidence

Record the work, observations and remaining commitments.

Keep outcomes separate

Repair, production, monitoring and paperwork are distinct.

Use the right procedure

No approved cover-removal procedure is supplied in this packet.

A reading needs context.

Evidence reference / supplied fictional training text

01 / Value and units

Record the observed value and units without silently rounding.

02 / When and where

Retain the observation time, source and equipment association.

03 / What it supports

A reading supports a narrow observation, not every job outcome.

04 / What remains open

Keep unverified production and unfinished warranty work visible.

Source recall is not procedural approval.

If an applicable warning is missing, say it is missing.

Do not invent equipment instructions from a photo or this demo reference.
